

WATER – THE MOST IMPORTANT RESOURCE TO SURVIVE

TOO MUCH WATER IS WASTED

only one person wastes about 112 litres water per day

→ *this is one nearly full bathtub*

*if you only take a short shower, you use and waste ca.80 litres
water*

*the chemical industry uses and wastes about 57% of the water that is
total used*

**EVERYBODY CAN DO SOMETHING, SO START NOW TO
SAVE WATER!**
